

DEC 8 1985

James K. Edwards, Director
Environmental Safety and Health Division
Department of Energy
Strategic Petroleum Reserve
Project Management Office
900 Commerce Road East
New Orleans, Louisiana 70123

Dear Mr. Edwards:

As requested in your letter of December 19, 1984, we are sending you a copy of the site identification form which contains the information which led us to place the West Hackberry site on our ERRIS list, and a copy of EPA's site enforcement and response system. Please note that under sections 101(21) and 103(c), federal facilities at which hazardous substances are or have been handled are required to notify EPA of such. This requirement applies to such federal facilities irrespective of the fact that they may not currently be on EPA's ERRIS list. Therefore, for your convenience, we are sending a copy of the CERCLA 103(c) notification form for your use in notifying us of all Strategic Petroleum Reserve Projects in Region VI at which hazardous substances are or have been handled.

If you have any questions regarding the enclosed information please contact Greg McCabe at (214) 767-9705.

Sincerely,

Martha McKee, Chief
Superfund Compliance Section
